

Some one fired a pistol on Saturday night into a crowd, collected in front of Parker's theatre, on King street. A party suspected of firing the shot was arrested, but released in a short time, there being no evidence against him.

The latest accounts received in England, in regard to the war in Schleswig, represent that the Danes had evacuated the city of Schleswig and were falling back on Flensburg. In the previous attacks on Missunde and Bristore both sides appear to have lost heavily.

Gen. Meade, it is said, has again joined the Army of the Potomac, and if the present fine weather continues, military operations are expected to commence very soon.

The Richmond Sentinel says a gentleman from abroad is boarding at one of the best hotels in that city who pays his bills in specie at sixty cents per day.

The weather has moderated, and this morning was like a spring day. The ice has broken up on the river and is rapidly disappearing.

**CALLS** the attention of the public to the following advantages of his improved system:  
1. The Teeth of their manufacture will never corrode nor change color by any acids, being three-fourths lighter than any other.

2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.

3. The roots will be made inoffensive and never to ache.

4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.

5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Dr. S. & Co. have also invented a white undestructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.
